- Other Cities
- Other City Urban Growth Areas
- Other City Urban Growth Areas

Intent and Purpose: This map replaces the 1993 Visual Form map and is intended to foster efforts to improve community perception and increase the sense of quality of life in Wichita through emphasis of the visual character of public facilities and open spaces.

Its purpose is to help the City with prioritizing City of Wichita public works projects along specified corridors, at gateways, and at other selected locations for aesthetic improvements including landscaping, public art, and other visual enhancements to public facilities and rights-of-way.
